DETAILED ACTION

This case was previously examined by Ex. Douglas Wille , who retired and the case was assigned to the present Examiner (Rao) after the appeal brief of August 08, 2005 was filed.

Allowable Subject Matter

Claims 12-20 are allowed.

The following is an examiner's statement of reasons for allowance: The applied prior art of record does not teach or suggest the limitations of independent claims 12 and 13 including modulation being adapted to inhibit optical beam intrusion upon the integrated circuit and it appears that the prior art cannot be properly be combined because the damaged (ion implanted) substrate cannot be substituted in the combination because such substitution would not provide a reliable data during testing to determine the desired voltage correlation data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven H. Rao whose telephone number is (571)272-1718. The examiner can normally be reached on 8.00 to 5.00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fahmy Wael can be reached on (571) 272-1714. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
